- Web Based Technologies

### Talent

We recognize that each client faces unique challenges particularly when it comes to the ever changing world of technology. KENDA provides the **staffing expertise** and **flexibility** that allows our clients to meet their short and long term staffing objectives. Our consultants and candidates are highly trained, reliable, and ready to meet challenges across a wide variety of technical platforms and industry specific verticals.

At KENDA, we take the time to understand our client's business and technical objectives. We then apply our unique **Service Delivery Methodology** in locating and securing the most appropriate and talented professionals for the situation.

## Technology Staffing

### Over Two Decades of Experience

KENDA has provided recruitment technical staffing services to its clients since 1984. From programmers and network professionals to business analysts and senior project managers KENDA identifies, qualifies and delivers top talent to some of the most recognizable organizations in the world. Whether these organizations are implementing new technology, require an increase in staff, or have special initiatives that demand only the highest skilled professionals, KENDA delivers the most qualified consultants in a timely and efficient manner every time.

### Our Clients Say It Best...

*"They [KENDA] have impressed us with their ability to 'hit the ground running.' Where the difference between winning and losing is often offering the best people at competitive prices in a timely and responsive manner; with their [KENDA's] support, we are winning."*

- Glenn Downer, COO  
Veridyne Inc.

### Technology Solutions

KENDA's Technology Solutions group specializes in improving business processes through **powerful**, **scalable**, and **customizable** technology products and services. Our solutions include document capture and extraction, résumé processing, a vendor portal for job distribution and candidate submittals, applicant tracking, career site development, and more.

**KENDA - TECHNOLOGY**
